Projects

My Add Telkomsel

End-to-end testing on ad & campaign platform, covering functional and performance scenarios.

Majoo CRM

CRM sales web platform with features for marketing setup through to subscription management.

Majoo Dashboard

Sales & employee management dashboard testing, including API and UI.

Majoo Cockpit

A web cockpit for managing menu features in the Majoo dashboard and POS.

Work Experience

November 2020 - August 2024

Quality Assurance Engineer

Majoo Indonesia

My testing responsibilities include testing the dashboard, CRM sales, cockpit, and mobile POS features of Majoo. This involves functional testing, creating documentation, writing test scenarios, and ensuring all features work as expected.

- Conducted functional testing for dashboard, CRM, cockpit, and mobile POS.
- Created test documentation and scenarios.
- Ensured all features worked as expected across web and mobile platforms.

August 2019 - September 2019

Web Administrator

Livien Furniture

Responsible for managing all functions of a marketplace website, including sales, data updates, shipments, and ensuring customers receive accurate and timely information.

March 2018 - July 2020

Software Test Engineer

PT Exel Sistem Solusindo

As a software tester for the MyAds Telkomsel product, I handle end-to-end, functional, and performance testing.
